7" x 5" Greeting Card

With Pre-Built Swatches for Gold and Silver
Metallic Inks and Gloss Spot Coating

If you plan on using this file as a starting point for your own business card design, please remember to delete whichever of the specialty swatches you're not using.

Silver

Gold

Clear*

* Remember to keep the "Blend Mode" for any objects with Gloss Spot Coating over them set to "Multiply" so the press can produce the effects you are expecting.

BACK

When printing with metallic inks and/or gloss spot coatings, you may only choose one metallic ink per side. Gold and silver metallic inks do not print well alongside one another, so we do not allow them both on a single side unless we receive a special request.
